Academic Details

- **Bachelor of Engineering (B.E.)**
Computer Engineering
VCET, Vasai(W);
CGPA: 7.4

Soft Skills

Motivated | Professional | Leader | Adaptable

Technical Skills

- **Programming Languages:**
JavaScript, Java, Nodejs, HTML5, CSS3
- **Frameworks:**
React, Express
- **Databases:**
MongoDB, MySQL
- **Version Control:**
Git & GitHub

Hard Skills

Agile Methodologies

Debugging

Restful API

MVC Architecture

Testing

Web Application

OOPS

Performance Optimization

Profile Summary

- A full stack developer with high **problem-solving skills** and develops **complex projects**.
- I have proficiency in **MVC-based** built projects which can be used by a wide range of people.
- **Developed a property listing webapp** which can be used widely.
- Most people **found it easier to rent a property** with help of my **NestFinder**.
- Identified the visual inaccuracies and **improved** the UI.
- Possesses **in-depth knowledge of multiple technology stacks** which in turn contributes to an efficient development stage of products.

Academic Projects

NestFinder

Feb 2024 – March 2024

Tools: JavaScript, Nodejs, Express, MongoDB

Created a comprehensive MERN application replicating the core functionalities of Airbnb, following the MVC architecture for organized and scalable code structure.

Responsibilities:

- Implemented robust user authentication and authorization mechanisms using **Passport**, ensuring secure access and user management.
- Utilize **Cloudinary** for efficient and scalable cloud storage of images and other media, facilitating a seamless user experience.
- Managed the application's data using **MongoDB Atlas**, leveraging its cloud-based capabilities for high availability and performance.
- Integrated **Map box API** to provide interactive and dynamic map displays, enhancing user experience with visually rich geographic information.
- < [Live Server](#) >

Work Experience

Prodigy Infotech

Dec 2023 – Jan 2024

Tools: JavaScript, Bootstrap

Responsibilities:

- Designed & developed 5+ frontend projects using JavaScript & Bootstrap, improving UI responsiveness by 30%.
- Developed the backend later on after completing the internship.
- Developed Basic full-stack applications like Weather App, Tic tac toe game. Demonstrating end-to-end development skills.

Academic Achievement

- **Organized Key Events:** Oversaw group discussions, aptitude tests, and placement drives, ensuring seamless execution.
- **Product Showcase Coordination:** Received an appreciation certificate for exemplary coordination at the college's prestigious Product Showcase.
- **Research Contribution:** Authored a research paper on "The Role of Blockchain and Information Systems in Attack Investigation and Prevention" with my team.
- **Paper-a-thon Participation:** Drafted the above-mentioned research paper during the college's Paper-a-thon, earning a participation certificate.
